Glycolic Acid

TECHNICAL DATA SHEET

Description:

Glycolic Acid is said to be one of the most powerful and effective of alpha hydroxy acids given its ability to retexturize, brighten, and refresh lackluster skin. Glycolic Acid helps break down pore-clogging, dead skin cells that sit on the surface of the skin while diminishing the look of fine lines, wrinkles, and discoloration—revealing a brighter and more youthful-looking complexion.

Feature: White crystalline powder

Water soluble

INCI name: Glycolic acid

Cosmetic grade , CAS:79-14-1

For used as an active ingredient

Typical Application:

Glycolic acid can reduce the appearance of fine lines, irregular pigmentation, age spots & decreases enlarged pores. It is being used in exfoliating products as alpha-hydroxy acid peel, or in creams & lotions at a lower concentration for a more gentle acid-based peel.

Typical use level : 1.0 % to 20.0%

Standard Packing : 500grams/ aluminum foil bag.

Shelf Life : 2 years

Quality System :

Manufacture according to quality system registered to ISO 9001:2008
