

Technical Data Sheet

Ceramide NP

Product Information

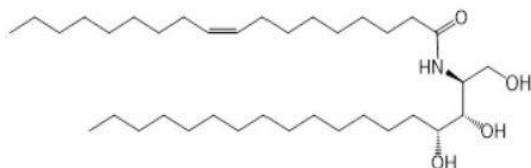

INCI: CERAMIDE NP

CAS: 100403-19-8

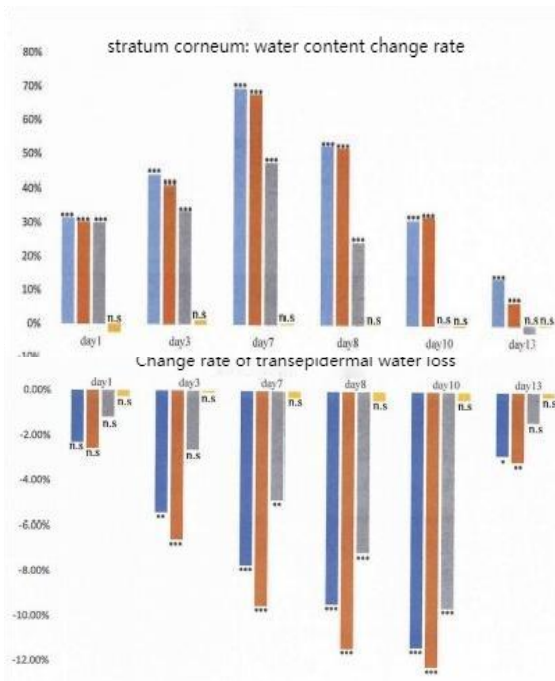

Appearance: white powder

Purity: ≥90%

Chemical Structure:

In Vitro Efficacy Experiments

A: Ceramide NP 0.1%
B: Ceramide NP 0.1%
C: Without Ceramides NP
KB: Blank control group

Function

Moisturizing

Ceramide NP can combine with the natural lipids of skin cells to increase the moisture content of the skin, prevent skin dryness.

Anti-aging

Ceramide NP can promote the regeneration and repair of skin cells, promote the synthesis of collagen and elastic fibers, thereby slowing down the skin aging process.

Anti-inflammatory

Ceramide NP can reduce the inflammatory response of the skin and relieve skin allergies and irritation.

Nutritional effect

Ceramide NP contains a variety of amino acids and other nutrients that can provide nutritional support to the skin and enhance skin health and radiance.

Use

High-end care products and makeup products such as lotions, creams, and essential oils

Packing & Storage

Standard packaging: 1kg/5kg/20kg packages

Shelf life: 36 months

Storage conditions: Keep sealed and protected from light at room temperature.

Recommended Dosage

0.02-2%
