

Accelerated Stability Data of AC-VBE

1 Testing method

Take appropriate amount of the sample and place them in a clean bottle, , and leave to test their stability under certain condition.

2 Result

Condition	Heat (60℃)			
Time	Items	240110AC01S	240110AC02S	240110AC03S
0 day	Appearance			
	Assay (%)	99.3	99.6	99.6
	Refractive index	1.5150	1.5145	1.5165
12 days	Appearance			
	Assay (%)	98.6	99.1	99.2
	Refractive index	1.5168	1.5168	1.5170
	Optical rotation	0.030	-0.145	-0.214

3 Conclusion:

It can be seen that under the conditions of 60 °C , no obvious changes were found in the appearance of these samples. The item assay showed a slight decrease, but it still met our specifications. So, our product AC-VBE has good heat stability.
