

RenatuCare SCG95

INCI Name:

Sodium Cocoyl Glutamate

CAS Number: 68187-32-6

General Information:

RenatuCare SCG95 is an extremely mild amino-acid surfactant, with outstanding foamability, good biodegradation, no irritation, and no-hypersusceptibility. It can reduce irritation and leftover of anionic surfactant such as SLS and fatty acid soap. It's widely used in shampoo, facial cleanser, soft soap and baby shampoo.

Specification:

Item	Specification
Appearance (25°C)	White powder
Acid value (mg KOH/g)	100-135
Moisture (%) max	5
Sodium Chloride (%) max	2.0

* These values indicate typical specification; they are not intended to be used as product specifications.

Benefits:

- Outstanding foamability

- Compatible with other surfactant, improving their mildness
- Obviously reduces the defatting ability of the soap base, improves the foam shape of the soap base and the feeling of tightness after washing
- Excellent conditioning effect on skin, leaving a moisturizing feel without tautness
- Good biodegradation
- Excellent resistance to hard-water

Application:

- Shower gel
- Shampoo
- Facial cleanser
- Baby product
- Soap
- Oral care product

Dosage:

1-30%

Storage & Handling:

Standard Packing: 15 kg / drum

Storage: Store the container tightly closed in a dry, cool and well-ventilated place.

Shelf life: 24 months
